NOTES TO THE QUARTERLY REPORT

- The accounting policies and methods of computation adopted for the quarterly financial statements are consistent with those adopted for the audited financial statements for the year ended 31 December 2001 as well as new approved accounting standards which are applicable for the current financial year. Consequently, in compliance with Malaysian Accounting Standards Board ("MASB") No.19, Events After Balance Sheet Date, dividends proposed after the balance sheet date are not recognised as a liability at the balance sheet date. As a result, the Group's unappropriated profit at the beginning of the year has been adjusted by a prior period adjustment as follows:

Unappropriated profit at beginning of the year :

	RM'000
As previously stated	2,666,015
Prior period adjustment – Final dividend for the year ended 31 December 2001	62,890
	<hr/>
As restated	2,728,905
	<hr/>

The above restatement of the Group's unappropriated profit at the beginning of the year has the effect of increasing the Net Tangible Assets per share from RM2.98 to RM3.03. Upon approval of the proposed final dividend by the shareholders of the Company at the Annual General Meeting held on 25 June 2002, the dividend has been recognised as a liability in the balance sheet as at 30 June 2002.

- The exceptional item for the current quarter and financial year-to-date was due to gain arising from the dilution of investment in an associated company, Star Cruises Limited.
- There are no extraordinary items for the current year quarter and financial year-to-date.
- Taxation charges for the current year-to-date is as follows:

Deferred Taxation	2,586	(62)
Share of tax in associated company	720	635
	<hr/> 146,964	<hr/> 117,794

The effective tax rate of the Group for the current financial year-to-date is higher than the statutory tax rate mainly due to tax losses of certain subsidiary companies and non-deductibility of certain expenses for tax purposes.

- The results for the current quarter and current financial year-to-date do not include any profit or loss on sale of unquoted investments and properties which are not in the ordinary course of business.

11. There were no changes in contingent liabilities since the last financial year ended 31 December 2001 and up to 22 August 2002.

(a) Singapore Dollar ("SGD")/US Dollar ("USD") Cross-Currency Swap ("CCS")

On 26 May 2000, the Group issued Euro Medium Term Notes ("Notes") of SGD100 million at fixed interest rate. These Notes are due to mature on 26 May 2003.

The Group then entered into 2 CCS agreements, first on the issue date of the Notes and the second on 3 August 2000. The effects of the 2 CCS agreements are to convert the entire issue of SGD Notes into a fixed rate USD liability.

The swaps terminate on the maturity of the loan, i.e. 26 May 2003.

(b) USD Interest Rate Swap ("IRS")

- (i) On 16 June 2000, the Group also issued Notes for USD26 million at floating interest rate based on SIBOR. These Notes are due to mature on 16 June 2003.

The Group entered into an IRS agreement on 8 August 2000 and the effect of this transaction is to effectively fix the interest rate payable on the entire loan principal of USD26 million.

The swap terminates on the maturity of the loan, i.e. 16 June 2003.

- (ii) On 25 April 2001, the Group had drawn down a loan amounting to USD200 million which was subjected to a floating interest rate based on LIBOR.

Subsequently, the Group entered into IRS agreements as follows:

Currency	Contract Amounts '000	Date of Transactions	Effective Date	Maturity Date(s)
US Dollars	30,000	13/08/2001	25/10/2001	25/04/2003 to 25/04/2006
US Dollars	30,000	16/08/2001	25/10/2001	25/04/2003 to 25/04/2006
US Dollars	20,000	22/08/2001	25/10/2001	25/04/2003 to 25/04/2006
US Dollars	20,000	30/08/2001	25/10/2001	25/04/2003 to 25/04/2006
US Dollars	10,000	08/05/2002	25/07/2002	25/04/2005
US Dollars	10,000	08/05/2002	25/07/2002	25/04/2006

The effect of the above swaps is to effectively fix the interest rate payable on that tranche of the loan from their respective effective dates up to maturity dates as set out above. The Group intends to enter into further interest rate swaps to convert the remaining portion of the loan of USD80 million from a floating rate to a fixed rate of interest.

(c) Foreign Currency Contracts

Currency	Contract Amounts '000	Date of Transactions	Expiry Dates
US Dollars	134,882	18/01/2002 to 12/07/2002	27/08/2002 to 16/06/2003
Australian Dollars	186	16/04/2002	23/08/2002 to 23/12/2002

As the above forward foreign currency contracts are entered into to cover the Group's commitments in foreign currencies, the contracted rates will be used to translate the underlying foreign currency transactions into Ringgit Malaysia. The above contracts are entered into with licensed banks.

These instruments are executed with creditworthy financial institutions and the Directors are of the view that the possibility of non-performance by these financial institutions is remote on the basis of their financial strength.

Derivative financial instruments, which include interest rate swap and currency swap agreements, are used in the Group's risk management of foreign currency and interest rate risk exposures of its financial liabilities.

The Group uses interest rate swap and currency swap agreements in order to limit the Group's exposure in relation to underlying debt instruments resulting from adverse fluctuations in interest rates or foreign currency exchange rates and to diversify sources of funding.

Hedge accounting principles are applied for the accounting of the underlying exposures and their respective hedge derivative instruments. The related interest differentials paid or received under the swap agreements are recognised over the terms of the agreements in interest expense. The underlying foreign currency liabilities, which have been effectively hedged by currency swap agreements, and designated as a hedge, are translated in the respective hedged currencies, at their prevailing rates as at the reporting date.

13. There are no pending material litigations as at 22 August 2002.

items for the Group of RM285.7 million compared to RM212.7 million in the preceding quarter. The higher profit before income tax is mainly due to a gain arising from the dilution of the investment in Star Cruises Limited ("SCL"), an associated company, by RM31.1 million and higher share of profit of RM37.7 million as compared to share of RM5.9 million in the preceding quarter. Excluding the factors attributed to SCL, the Group's profit before income tax was RM216.9 million compared to RM206.8 million in the preceding quarter. The higher profit was mainly due to the better performance of the leisure and hospitality division during the current quarter as a result of higher visitor arrivals.

16. The Group registered revenue and profit before income tax of RM683.6 million and RM285.7 million respectively for the current quarter compared to revenue and profit before income tax of RM599.9 million and RM193.9 million respectively for the corresponding quarter in 2001. The higher profit before income tax is mainly due to a gain arising from the dilution of the investment in SCL of RM31.1 million and higher share of SCL's profit by RM28.7 million recorded in current quarter. Excluding these, the profit for the current quarter was RM216.9 million compared to RM184.9 million in the corresponding quarter in 2001. The higher profit was mainly attributable to the better underlying performance in the leisure and hospitality segment as a result of the increase in visitor arrivals. The increase in visitor arrivals was mainly due to the full opening of the 3,300-room First World Hotel and First World Plaza in December 2001 and March 2002 respectively.

The Group registered a revenue and profit before income tax of RM1,418.9 million and RM498.4 million respectively for the half year ended 30 June 2002 compared to a revenue and profit before income tax of RM1,237.2 million and RM251.8 million respectively for the corresponding period last year. The higher profit before income tax is mainly due to lower financing costs and charges relating to investments totalling RM51.4 million incurred in the current period to date compared to RM147.9 million in the corresponding period last year. Profit before income tax has also improved due to a gain arising from the dilution of the investment in SCL of RM31.1 million and higher share of SCL's profit by RM38.4 million in current period to date. Excluding these charges and gain, the profit was RM475.2 million compared to RM394.5 million in the corresponding period last year. The higher profit was mainly due to higher visitor arrivals.

18. The business operations of the Group's leisure and hospitality division are subject to seasonal fluctuations. The results are affected by major festive seasons and holidays.
19. Barring unforeseen circumstances, the Directors are of the opinion that the Group's performance is expected to be satisfactory for the remaining period of the year.

22. As at 30 June 2002, the Company has 1,502,000 unissued ordinary shares outstanding under The Resorts World Employees' Share Option Scheme (RWBESOS). In accordance with the provision laid down by the Malaysian Accounting Standard Board ("MASB") No.13 on Earnings Per Share, share options are dilutive when they are issued for no consideration or where a portion of the outstanding share options are deemed dilutive in situations where the exercise price of the options is below its fair value.

Since the exercise price of the RWBESOS is above the fair value of the Company's shares for the current quarter and the current financial year-to-date, the options are deemed non dilutive.
